AFRICA  
CHILDREN'S  
HOPE  
2017**

# 2017 WAS ANOTHER RECORD YEAR FOR EAST AFRICA CHILDREN'S HOPE.

**Another year has gone by and we are thrilled to report another year of incredible progress at Upendo and Good Hope. The year, 2017, was another record year for EACH - thanks to our generous donors we were able to donate \$60,000 to our sites in East Africa!**

In 2017, Good Hope's accomplishments in Uganda by far outweighed our expectations. EACH was able to purchase additional land for GHI to engage in agricultural initiatives to not only educate the children but to feed the increasing number of students at Good Hope, and set them further on the road to self-sustainability. Part of the land was set aside to be used for a physical education area/playground for the children as well as for the additional classrooms Good Hope will build in 2018 to accommodate the increasing population of students.

EACH was also able to provide funding for a truck to assist in the management and transportation of supplies for the pig farm and new farm land. Finally, EACH was able to sponsor seven Good Hope students in their quest for secondary school! The example that is being set at Good Hope by the "Pioneer" students resonates all the way to the youngest primary school students.

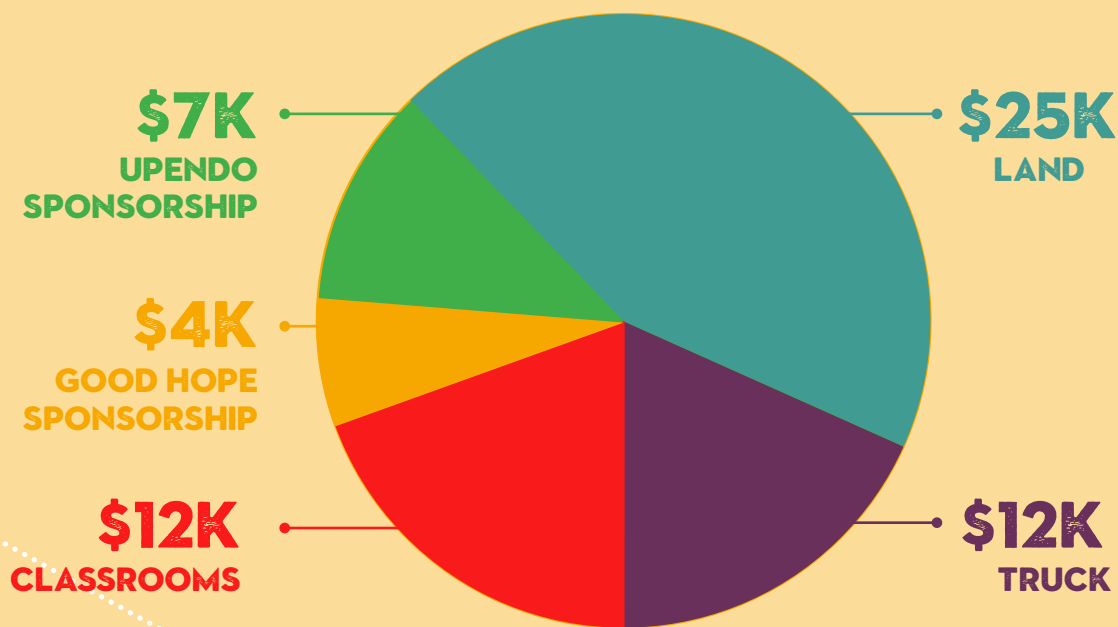

At Upendo in Kenya, we were able to fund the secondary school education of fourteen girls. This is the most we've sponsored yet! We are so impressed with these young women and all they have accomplished. Three of the students completed their secondary school program and are now seeking post secondary school opportunities. The students are so grateful for their sponsors and we know they will continue to make us all proud.

We anticipate that 2018 will be another incredible year as we work towards building the sustainability of our schools and educating as many students as possible. We plan to construct two more classrooms in Uganda and to send additional children from Good Hope to secondary school, while continuing our secondary school sponsorship program at Upendo in Kenya and sending our recent graduates to college! We can't wait to see all that 2018 will bring to our students in East Africa.

We, of course, couldn't have done any of this without you, our generous donors. Thank you for your long standing support from the Directors in Africa and our Team here in the USA. As you've seen, a little goes a long way and you've substantially impacted the lives of two amazing communities, half a world away.

**All the best,  
Melissa & Melanie  
- Co-Founders**

# MY JOURNEY BACK TO GOOD HOPE

April 2017 - April 2018

MELISSA  
BUDNICK  
MALIQI

*In April 2017, Melissa visited Good Hope for a long overdue visit. She was so impressed with all the work that had been accomplished since the last visit and blown away by the number of children being educated at Good Hope.*

**"Good Hope students don't have much, but they have everything they need. They live in a community of people who love them and support their education. EACH is so lucky to be a part of that."**

**"I'm so proud of the work EACH has done in Uganda. By sending the first group of students to secondary school, the "Pioneers" as they're called, are able to serve as role models for the 600 students currently attending Good Hope. EACH is making a significant impact here."**

“The community at large gets so excited when EACH members come to visit. They all wanted to meet me and tell me how much they appreciated the work we’ve done for their children. Without EACH many of the students would not receive an education.”

“The borehole (well) at Good Hope has made a measurable difference in the quality of life at Good Hope for not just the school but the community. Instead of walking for an hour or more to get water from the pre-existing water source, community members take the short walk to Good Hope. The time saved enables the students to study and participate in school.
